Intelligent transport systems — Basic principles for personal data protection in probe vehicle information services

---

## Contents

Page

|  |    |
|--|----|
| Foreword .....   | iv |
| Introduction.....  | v  |
| 1 Scope .....  | 1  |
| 2 Normative references.....  | 1  |
| 3 Terms and definitions .....  | 1  |
| 4 Privacy context for probe vehicle systems .....                            | 4  |
| 5 Reference architecture.....  | 5  |
| 6 Personal data included in probe vehicle systems .....                      | 6  |
| 6.1 Personal data .....  | 6  |
| 6.2 Encryption data that can become personal data .....                      | 7  |
| 6.3 Authentication data that can become personal data.....                   | 8  |
| 7 The basic principles .....   | 8  |
| 7.1 General .....  | 8  |
| 7.2 Collection limitation principle .....                                    | 8  |
| 7.3 Data quality principle .....   | 9  |
| 7.4 Purpose specification principle .....                                    | 9  |
| 7.5 Use-limitation principle.....  | 10 |
| 7.6 Security safeguards principle .....                                      | 10 |
| 7.7 Openness principle .....   | 10 |
| 7.8 Individual participation principle .....                                 | 10 |
| 7.9 Accountability principle.....  | 10 |
| Annex A (informative) Threats to personal data in probe vehicle systems..... | 11 |
| Bibliography.....  | 23 |
