Foreword iv

Introduction v

1 Scope 1

2 Terms and definitions 1

3 Lane change test (LCT) 3
3.1 Principle and overview 3
3.2 Participants 4
3.3 Equipment 4
3.4 Scenario design 5
3.5 Experimental design 8
3.6 Procedure 9
3.7 Performance measures and data analysis 11
3.8 Validation 14

Annex A (normative) Instructions to participants 15

Annex B (informative) Experimental plan 18

Annex C (informative) Background and rationale 20

Annex D (informative) Adapting LCT to a real vehicle 23

Annex E (normative) Calculation of LCT metric using an adapted path trajectory for each participant 24

Annex F (informative) Interpretation of LCT measures 32

Annex G (informative) Initial validation of LCT 38
