

# DIN EN 15213-3:2013-08 (E)

## Intelligent transport systems - After-theft systems for the recovery of stolen vehicles - Part 3: Interface and system requirements in terms of short range communication system

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | 3           |
| Introduction .....    |  | 4           |
| 1                     | Scope .....  | 5           |
| 2                     | Normative references .....                                     | 5           |
| 3                     | Terms and definitions .....                                    | 6           |
| 4                     | Symbols and abbreviations .....                                | 7           |
| 5                     | Requirements for Short Range Operations .....                  | 9           |
| 5.1                   | Detailed Architecture Diagrams and Sequence Diagrams .....     | 9           |
| 5.2                   | Identification Function .....                                  | 13          |
| 5.3                   | Remote Activation Function .....                               | 13          |
| 5.4                   | Remote Deactivation Function .....                             | 14          |
| 5.5                   | Remote Degradation Function (optional) .....                   | 15          |
| 5.6                   | Theft Indication Function .....                                | 16          |
| 5.7                   | Interaction Sequences .....                                    | 16          |
| 6                     | Operating Characteristics .....                                | 17          |
| 6.1                   | General .....  | 17          |
| 6.2                   | Characteristics common to both OBE and DE .....                | 17          |
| 6.3                   | Characteristics of On Board Equipment "OBE" in a vehicle ..... | 20          |
| 6.4                   | Characteristics of the Detection Equipment "DE" .....          | 21          |
| 6.5                   | Communication distance between OBE and DE .....                | 22          |
| 6.6                   | Vehicle speed limits .....                                     | 22          |
| 6.7                   | Minimum Number of Activations without Vehicle Battery .....    | 22          |
| 6.8                   | Discrimination among Vehicles .....                            | 22          |
| 7                     | Data Elements .....  | 23          |
| 7.1                   | Introduction .....   | 23          |
| 7.2                   | Data Elements Common to both OBE and DE .....                  | 24          |
| Annex A (informative) | Regulatory issues .....  | 26          |
| Annex B (informative) | State chart diagrams of the ATSVR processes .....              | 27          |
| Bibliography .....    |  | 35          |
