

ISO/TS 15638-6:2013-08 (E)

Intelligent transport systems - Framework for collaborative Telematics Applications for Regulated commercial freight Vehicles (TARV) - Part 6: Regulated applications

Contents		Page
1	Scope	1
2	Conformance	2
3	Normative references.....	2
4	Terms and definitions	3
5	Symbols (and abbreviated terms).....	9
6	General overview and framework	11
7	Requirements for services using generic vehicle data	14
7.1	General	14
7.1.1	Regulated application services using only generic <i>basic vehicle data</i>	14
7.1.2	Regulated application services using both generic vehicle data and additional regulated application specific data.....	14
7.1.3	'Instigated' and 'Interrogated' data.....	15
7.1.4	Get commands for specific TARV regulated application services	15
7.2	Conveyance identifiers	16
7.3	Consignment data	16
8	Application services that require data in addition to <i>basic vehicle data</i>	16
8.1	General	16
8.2	Concept of operations for identified regulated application services with additional data requirements.....	16
8.2.1	General	16
8.2.2	Statement of the goals and objectives of the system	17
8.2.3	Strategies, tactics, policies, and constraints affecting the system	18
8.2.4	Organisations, activities, and interactions among participants and stakeholders.....	18
8.2.5	Clear statement of responsibilities and authorities delegated.....	18
8.2.6	User.....	18
8.2.7	Application service provider	18
8.2.8	Application service.....	19
8.2.9	Operational processes for the system.....	19
8.2.10	Service requirements definition.....	19
8.3	Sequence of operations for identified regulated application services with additional data requirements.....	19
8.3.1	Framework for operations	19
8.3.2	ROAM 'App' library and data pantry.....	20
8.3.3	Concurrent multiple 'apps' and 'core data'	22
8.3.4	General sequence of operations.....	22
8.3.5	ACKnowledgements.....	29
8.3.6	Application specific sequences of operations	31
8.4	Quality of service requirements.....	31
8.5	Test requirements	31
8.6	Marking, labelling and packaging	31
9	Common features of regulated TARV application services.....	32
9.1	General	32
9.2	Generic operational processes for the system	32
9.3	Common role of the jurisdiction	33
9.3.1	General	33
9.3.2	Common role of the 'agent of the jurisdiction'	33
9.3.3	Common role of the 'approval authority'	33
9.4	Common role of the prime service provider.....	34

9.5	Common role of the application service provider	35
9.6	Common role of the user	35
9.6.1	Role of the driver	35
9.6.2	Role of the operator	36
9.7	Common characteristics for instantiations of regulated application services	36
9.8	Common sequence of operations for regulated application services	37
9.9	Quality of service	38
9.10	Information security	39
9.11	Data naming content and quality	39
9.12	Software engineering quality systems	41
9.13	Quality monitoring station	41
9.14	Audits	41
9.15	Access control policy	42
9.16	Approval of IVSs and service providers	42
10	Specified TARV regulated application services	42
10.1	General	42
10.2	Vehicle access monitoring (VAM)	42
10.3	Remote electronic tachograph monitoring (RTM)	42
10.4	Emergency messaging system/eCall (EMS)	42
10.5	Driver work records (work and rest hours compliance) (DWR)	42
10.6	Vehicle mass monitoring (VMM)	42
10.7	'mass' data for regulatory control and management (MRC)	43
10.8	Vehicle access control (VAC)	43
10.9	Vehicle location monitoring (VLM)	43
10.10	Vehicle speed monitoring (VSM)	43
10.11	Consignment and location monitoring (CLM)	43
10.12	Accord Dangereuses par Route (Dangerous Goods) monitoring (ADR)	43
10.13	Vehicle secure parking (VPF)	43
10.14	Other TARV regulated application services	43
11	Declaration of patents and intellectual property	44
	Bibliography	45
