| 6.2    | Security management                           |
| 6.3    | Privacy management                            |
| 6.4    | Application management                        |
| 6.5    | Facilities management                         |
| 6.6    | Networking & transport management             |
| 6.7    | Access technology management                  |
| 7      | CI basic management                           |
| 7.1    | General                                       |
| 7.2    | CI status                                     |
| 7.2.1  | CI state machine                              |
| 7.2.2  | Registration                                  |
| 7.2.3  | VCI creation                                  |
| 7.2.4  | Deregistration                                |
| 7.2.5  | Inactivation                                  |
| 7.2.6  | Activation                                    |
| 7.2.7  | Suspension of a CI                            |
| 7.2.8  | Resuming                                      |
| 7.2.9  | Connection                                    |
| 7.2.10 | Disconnection                                 |
| 7.2.11 | Deletion of a VCI                             |
| 7.3    | I-Parameters                                  |
| 7.3.1  | General                                       |
| 7.3.2  | Setting of parameter values                   |
| 7.3.3  | Retrieval of parameter values                 |
| 7.3.4  | Monitoring of parameters                      |
| 7.3.5  | Access to other ITS-SCUs                      |
| 7.4    | Manufacturer access                           |
| 8      | Interference management                       |
| 8.1    | General                                       |
| 8.2    | DSRC mitigation techniques                    |
| 8.3    | Cross-CI prioritization (self-interference)   |
| 8.3.1  | General                                       |
| 8.3.2  | Registration of CI for prioritization request |
| 8.3.3  | Prioritization request                        |
| 8.3.4  | Prioritization release                        |
