|--------------------|---|-------------|
| Foreword .....     |   | v           |
| Introduction ..... |   | vi          |
| 1                  | Scope .....   | 1           |
| 2                  | Normative references .....  | 1           |
| 3                  | Terms and definitions .....   | 1           |
| 4                  | Abbreviated terms .....   | 2           |
| 5                  | Charging policies .....   | 4           |
| 5.1                | General description .....   | 4           |
| 5.2                | Conventional charging policies .....                                | 4           |
| 5.2.1              | Financial sources for road construction .....                       | 4           |
| 5.2.2              | Financial sources for road maintenance .....                        | 4           |
| 5.2.3              | Reduction for congestion in urban area .....                        | 4           |
| 5.2.4              | Internalizing external costs .....                                  | 5           |
| 5.2.5              | Summary of conventional charging policies .....                     | 5           |
| 5.3                | New charging policies .....   | 5           |
| 5.3.1              | Financial source for road construction with low cost devices .....  | 5           |
| 5.3.2              | Financial source for road maintenance alternative to fuel tax ..... | 5           |
| 5.3.3              | Provision of appropriate route or lane .....                        | 6           |
| 5.3.4              | Integration of C-ITS technology with EFC .....                      | 6           |
| 5.3.5              | Fair charging rates .....   | 6           |
| 5.3.6              | Summary of new charging policies .....                              | 6           |
| 5.4                | Integrated charging policies .....                                  | 7           |
| 5.4.1              | General .....   | 7           |
| 5.4.2              | Financial source for road construction and maintenance .....        | 7           |
| 5.4.3              | Traffic management by charging .....                                | 7           |
| 5.4.4              | Internalizing external costs .....                                  | 7           |
| 5.4.5              | Fair charging rates .....   | 7           |
| 5.4.6              | Summary of integrated charging policies .....                       | 7           |
| 6                  | Functional requirements .....                                       | 8           |
| 6.1                | EFC function .....  | 8           |
| 6.1.1              | EFC functional model .....  | 8           |
| 6.1.2              | Charging .....  | 9           |
| 6.1.3              | Enforcement .....   | 11          |
| 6.1.4              | Information provision .....   | 11          |
| 6.1.5              | Payment .....   | 12          |
| 6.2                | Relation between charging policies and EFC functions .....          | 12          |
| 6.3                | EFC functional requirements .....                                   | 13          |
| 6.3.1              | Charging .....  | 13          |
| 6.3.2              | Enforcement .....   | 14          |
| 6.3.3              | Information provision .....   | 14          |
| 6.3.4              | Summary of EFC functional requirements .....                        | 14          |
| 7                  | Technology for requirements .....                                   | 15          |
| 7.1                | General .....   | 15          |

|   |  |    |
|---|--|----|
| 7.2   | Charging .....   | 15 |
| 7.2.1   | Distance driven .....  | 15 |
| 7.2.2   | Vehicle class .....  | 16 |
| 7.2.3   | Time class .....   | 16 |
| 7.2.4   | Location class .....   | 16 |
| 7.2.5   | Traffic conditions .....                                       | 16 |
| 7.2.6   | Summary .....  | 16 |
| 7.3   | Enforcement .....  | 17 |
| 7.3.1   | Payment avoidance .....  | 17 |
| 7.3.2   | Over loaded .....  | 18 |
| 7.3.3   | Summary .....  | 18 |
| 7.4   | Information provision .....                                    | 18 |
| 7.4.1   | Tariff information .....                                       | 18 |
| 7.4.2   | Level of services (LOS) .....                                  | 19 |
| 7.4.3   | Charge amount .....  | 19 |
| 7.4.4   | Summary .....  | 19 |
| 8   | Charging technologies .....                                    | 20 |
| 8.1   | General description .....                                      | 20 |
| 8.1.1   | Eliminated EFC technologies or equipment .....                 | 20 |
| 8.2   | Existing technologies .....                                    | 21 |
| 8.2.1   | DSRC .....   | 21 |
| 8.2.2   | Autonomous systems (GNSS/CN) .....                             | 21 |
| 8.2.3   | ANPR .....   | 22 |
| 8.3   | Emerging technologies .....                                    | 23 |
| 8.3.1   | Probe data .....   | 23 |
| 8.3.2   | Odometer .....   | 24 |
| 8.3.3   | Passive RFID .....   | 24 |
| 8.3.4   | WAVE .....   | 25 |
| 8.3.5   | WIM .....  | 27 |
| 8.3.6   | Other technologies .....                                       | 28 |
| 8.4   | Consideration of mutual applicability .....                    | 29 |
| 8.4.1   | General .....  | 29 |
| 8.4.2   | Existing technologies for new charging policies .....          | 29 |
| 8.4.3   | Emerging technologies for conventional charging policies ..... | 29 |
| 8.4.4   | Emerging technologies for new charging policies .....          | 29 |
| 9   | Recommendations .....  | 30 |
| 9.1   | General .....  | 30 |
| 9.1.1   | Evaluation criteria .....                                      | 31 |
| 9.2   | Evaluations .....  | 32 |
| 9.2.1   | Charging assist traffic management .....                       | 32 |
| 9.2.2   | Passive UHF RFID-based EFC .....                               | 32 |
| 9.2.3   | Odometer-based EFC .....                                       | 32 |
| 9.2.4   | ANPR based EFC .....   | 32 |
| 9.2.5   | Toll-by-weight .....   | 33 |
| 9.2.6   | WAVE based EFC .....   | 33 |
| 9.2.7   | CN-5G for EFC .....  | 33 |
| 9.2.8   | A-GNSS for EFC .....   | 33 |
| 9.3   | Summary .....  | 33 |
| Annex A (informative) Application of technology to EFC systems .....    |  | 35 |
| Annex B (informative) Example of tariffs .....                          |  | 43 |
| Annex C (informative) Comparison of communication technologies .....    |  | 51 |
| Annex D (informative) Examples of legislation for charging policy ..... |  | 61 |
| Bibliography .....  |  | 63 |
