ISO 22241-2:2019 (E)

Diesel engines — NOx reduction agent AUS 32 — Part 2: Test methods

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Specifications

5 Sampling

6 Precision and dispute

Annex A (normative) Sampling

- A.1 General
- A.2 Principle
- A.3 Possible contaminants
- A.4 Apparatus
- A.5 Sampling
- A.6 Sample quantity
- A.7 Labelling

Annex B (normative) Determination of urea content by total nitrogen

- B.1 General
- B.2 Principle
- B.3 Apparatus
- B.4 Chemicals
- B.5 Procedure
- B.5.1 General
- B.5.2 Reference curve
- B.5.3 Inspecting the apparatus for good working order and the reference curve
- B.5.4 Measurement
- B.6 Results
- B.6.1 Calculation
- B.6.2 Expression of results
- B.7 Precision
- B.7.1 General
- B.7.2 Repeatability, r
- B.7.3 Reproducibility, R
- B.8 Test report

Annex C (normative) Refractive index and determination of urea content by refractive index

- C.1 General
- C.2 Principle
- C.3 Apparatus
- C.4 Chemicals
- C.5 Procedure
- C.5.1 General
- C.5.2 Refractometer calibration and verification
- C.5.3 Sample preparation and measuring
- C.6 Calculation and expression of results
- C.6.1 Calculation
- C.6.2 Expression of results

C.7 Precision
C.7.1 General
C.7.2 Repeatability, r
C.7.3 Reproducibility, R
C.8 Test report

Annex D (normative) Determination of alkalinity

D.1 General
D.2 Principle
D.3 Apparatus
D.4 Chemicals
D.5 Procedure
D.5.1 Interferences
D.5.2 Check of potentiometric system
D.5.3 Preliminary test
D.5.4 Determination
D.6 Results
D.6.1 Calculation
D.6.2 Expression of results
D.7 Precision
D.7.1 General
D.7.2 Repeatability, r
D.7.3 Reproducibility, R
D.8 Test report

Annex E (normative) Determination of biuret content

E.1 General
E.2 Principle
E.3 Apparatus
E.4 Chemicals
E.5 Procedure
E.5.1 Interferences
E.5.2 Preparation of the calibration curve
E.5.3 Calculation of the calibration factor
E.5.4 Day-factor
E.5.5 Measurement
E.6 Results
E.6.1 Calculation
E.6.2 Expression of results
E.7 Precision
E.7.1 General
E.7.2 Repeatability, r
E.7.3 Reproducibility, R
E.8 Test report

Annex F (normative) Determination of aldehyde content

F.1 General
F.2 Principle
F.3 Apparatus
F.4 Chemicals
F.5 Procedure
F.5.1 Preparation of the calibration curve
F.5.2 Calculation of the calibration factor
F.5.3 Check of the method
F.5.4 Measuring of samples
F.6 Results
F.6.1 Calculation
F.6.2 Expression of results
F.7 Precision
F.7.1 General
F.7.2 Repeatability, r
F.7.3 Reproducibility, R
F.8 Test report

Annex G (normative) Determination of insoluble matter content by gravimetric method

G.1 General
G.2 Principle
G.3 Apparatus
G.4 Chemicals
G.5 Procedure
G.6 Results
G.6.1 Calculation
G.6.2 Expression of results
G.7 Precision
G.7.1 General
G.7.2 Repeatability, r
G.7.3 Reproducibility, R
G.8 Test report

Annex H (normative) Determination of phosphate content by photometric method

H.1 General
H.2 Principle
H.3 Apparatus
H.4 Chemicals
H.5 Procedure
H.5.1 Preparation of the calibration curve
H.5.2 Calculation of the calibration factor
H.5.3 Process examination
H.5.3.1 Purpose
H.5.3.2 Principle
H.5.3.3 Execution
H.5.3.4 Frequency
H.5.4 Examination of the calibration curve
H.5.4.1 Purpose
H.5.4.2 Principle
H.5.4.3 Execution
H.5.4.4 Frequency
H.5.5 Sample preparation
H.5.6 Decomposition
H.5.7 Photometric determination
H.6 Results
H.6.1 Calculation
H.6.2 Expression of results
H.7 Precision
H.7.1 General
H.7.2 Repeatability, r
H.7.3 Reproducibility, R
H.8 Test report

Annex I (normative) Determination of trace element content (Al, Ca, Cr, Cu, Fe, K, Mg, Na, Ni, P and Zn) by ICP-OES method

I.1 General
I.2 Principle
I.3 Apparatus
I.4 Reagents and materials
I.5 Procedure
I.5.1 Interferences
I.5.2 Sample preparation
I.5.3 Setting the ICP OES spectrometer
I.5.4 Generation of reference curves
I.5.4.1 Reference solutions
I.5.4.2 Setting the calibration curve
I.5.4.3 Verification of the calibration
I.5.5 Sample measurement
I.5.6 Measurement procedure
I.6 Results
I.6.1 Calculation

I.6.2 Expression of results
I.7 Precision
I.7.1 General
I.7.2 Repeatability, r
I.7.3 Reproducibility, R
I.8 Test report

Annex J (informative) Determination of identity by FTIR spectrometry method

J.1 General
J.2 Principle
J.3 Apparatus
J.4 Procedure
J.5 Expression of results
J.6 Examples

Annex K (informative) Precision of test method

Page count: 44
