Foreword iv

Introduction v

1 Scope 1

2 Normative references 2

3 Termsanddefinitions 2

4 Abbreviated terms 5

5 General overview and framework 5

6 Requirements 8
6.1 Threat, vulnerability and risk analysis 8
6.2 Functional requirements for security of targets of evaluation (TOEs) 8
6.2.1 TOE -- In-vehicle systems 8
6.2.2 TOE -- Application service provider systems 8
6.2.3 TOE -- TARV data transfer 9
6.2.4 Means of TARV data transfer 9
6.2.5 TARV data security requirements 9
6.3 General specifications for the security of TARV 9
6.3.1 Destined to a predetermined IPv6 address (URI) 9
6.3.2 ASP or jurisdiction determines security requirements 10
6.4 Low security data transfers via an ITS-station 10
6.5 TARV Data transfers via an ITS-station with C-ITS security (BSMD) 10
6.5.1 Within ISO 21217 ITS-station environment 10
6.5.2 Within ISO 21210 networking environment 10
6.5.3 Within ISO 17423 selection of communications profile requirements 10
6.5.4 When accessing specific wireless media 10
6.6 TARV data transfers including defined security, but outside a BSMD 11
6.6.1 General 11
6.6.2 Security data 12
6.6.3 IVS TARV security module 12
6.7 Identity management 12
6.8 Trust and privacy management 12
6.9 Access control 12
6.10 Confidentiality services 12
6.11 Data privacy 12
6.12 Integrity of trailer identification 13
6.13 Exception handling 13
6.14 Cross-border operations and harmonization 13

7 Quality of service requirements 13

8 Test requirements 13

9 Marking, labelling and packaging 13

Annex A (informative) Example TARV security in a regulatory domain 14
