| <b>Contents</b>    |                                                                                                            | <b>Page</b> |
|--------------------|------------------------------------------------------------------------------------------------------------|-------------|
| Foreword .....     |                                                                                                            | v           |
| Introduction ..... |                                                                                                            | vi          |
| 1                  | Scope .....                                                                                                | 1           |
| 2                  | Normative references .....                                                                                 | 1           |
| 3                  | Terms and definitions .....                                                                                | 1           |
| 4                  | Symbols and abbreviated terms .....                                                                        | 2           |
| 4.1                | Symbols .....                                                                                              | 2           |
| 4.2                | Abbreviated terms .....                                                                                    | 2           |
| 5                  | Conventions .....                                                                                          | 2           |
| 6                  | Service primitive interface definition .....                                                               | 2           |
| 7                  | Technical requirements .....                                                                               | 3           |
| 7.1                | Overview .....                                                                                             | 3           |
| 7.2                | Implementation guidelines .....                                                                            | 4           |
| 7.2.1              | General .....                                                                                              | 4           |
| 7.2.2              | Definition of diagnostic classes .....                                                                     | 4           |
| 7.2.3              | LIN node requirements .....                                                                                | 5           |
| 7.2.4              | Signal-based diagnostics .....                                                                             | 6           |
| 7.2.5              | Tool suite support .....                                                                                   | 7           |
| 8                  | Application layer .....                                                                                    | 7           |
| 8.1                | ISO 14229-1 service primitive parameters .....                                                             | 7           |
| 8.2                | A_Data.req, A_Data.ind, and A_Data.conf service interface .....                                            | 7           |
| 8.3                | UDSonLIN services overview .....                                                                           | 7           |
| 8.4                | A_PDU definition .....                                                                                     | 9           |
| 8.5                | A_Length definition .....                                                                                  | 9           |
| 8.6                | CommunicationControl service UDSonLIN implementation requirements .....                                    | 9           |
| 8.7                | ResponseOnEvent service UDSonLIN implementation requirements .....                                         | 10          |
| 8.8                | Timing parameter definition .....                                                                          | 10          |
| 9                  | Presentation layer .....                                                                                   | 12          |
| 10                 | Session layer .....                                                                                        | 12          |
| 10.1               | Service primitive parameter definition .....                                                               | 12          |
| 10.2               | S_Data.req, S_Data.ind, and S_Data.conf service interface .....                                            | 12          |
| 11                 | Transport layer .....                                                                                      | 12          |
| 11.1               | General .....                                                                                              | 12          |
| 11.2               | Service primitive parameters .....                                                                         | 12          |
| 11.3               | T_Data.req, T_Data.ind, and T_Data.conf service interface .....                                            | 12          |
| 11.4               | T_PDU definition .....                                                                                     | 13          |
| 11.5               | LIN transport and network layer interface adaptation .....                                                 | 13          |
| 11.5.1             | Mapping of data link independent service primitives onto LIN data link- dependent service primitives ..... | 13          |

|        |                                                                 |    |
|--------|-----------------------------------------------------------------|----|
| 11.5.2 | Mapping of T_PDU onto N_PDU .....                               | 13 |
| 12     | Network layer .....                                             | 14 |
| 12.1   | Service primitive parameter definition .....                    | 14 |
| 12.2   | N_Data.req, N_Data.ind, and N_Data.conf service interface ..... | 14 |
| 12.3   | N_PDU definition .....                                          | 14 |
| 12.4   | N_TAtype service primitive parameter .....                      | 15 |
| 12.5   | LIN responder node requirements .....                           | 15 |
| 12.6   | LIN commander node requirements .....                           | 16 |
| 12.6.1 | Network address requirements .....                              | 16 |
| 12.6.2 | Use of functional addressing .....                              | 16 |
| 13     | Data link layer .....                                           | 16 |
| 13.1   | Service primitive parameter definition .....                    | 16 |
| 13.2   | L_Data.req, L_Data.ind, and L_Data.conf service interface ..... | 16 |
| 13.3   | L_PDU definition .....                                          | 17 |
| 13.4   | L_PID definition .....                                          | 17 |
| 13.5   | L_CS definition .....                                           | 17 |
| 14     | Physical layer .....                                            | 17 |
|        | Bibliography .....                                              | 18 |
