|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | v           |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....                          | 1           |
| 3   | Terms and definitions .....                         | 1           |
| 4   | Categorization .....                                | 1           |
| 4.1   | Objectives .....                                    | 1           |
| 4.2   | General .....                                       | 1           |
| 4.3   | Inputs to this clause .....                         | 2           |
| 4.3.1   | Informative references .....                        | 2           |
| 4.4   | Requirements and recommendations .....              | 2           |
| 4.4.1   | General .....                                       | 2           |
| 4.4.2   | Purpose of tags .....                               | 3           |
| 4.4.3   | Extension of tags and trees of tags .....           | 4           |
| 4.4.4   | Tags for a dynamic entity .....                     | 4           |
| 4.4.5   | Tags for the scenery elements .....                 | 16          |
| 4.4.6   | Tags for the environment conditions .....           | 31          |
| 4.4.7   | Tags for additional information of a scenario ..... | 37          |
| 4.4.8   | Tags for the intended test usage .....              | 42          |
| 4.4.9   | Using tags for specifying scenario categories ..... | 42          |
| 4.5   | Work products .....                                 | 46          |
| Annex A (informative) Examples of scenario categories ..... |   | 47          |
| Bibliography .....  |   | 51          |
