DIN EN 16072:2025-07 (E)

Intelligent transport systems - eSafety - Pan-European eCall operating requirements

Contents

Page

European foreword 4

Introduction 5

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Abbreviated terms 13

5 Conformance 13

6 High level functional requirements 13
6.1 General high level functional requirements 13
6.1.1 General 13
6.1.2 Linguistic aspects 14
6.1.3 High level In-vehicle system requirements 14
6.1.4 eCall architecture 14
6.1.5 eCall operation sequence 15
6.2 eCall service chain 15
6.2.1 General 15
6.2.2 Actors in eCall service provision 15
6.2.3 Privacy aspects 16
6.2.4 Use of location and heading at PSAP 16

7 Operational requirements 16
7.1 General 16
7.2 Liability 17
7.3 Routing of an eCall 17
7.3.1 General 17
7.3.2 eCall `flag' 17
7.3.3 eCall routing to PSAP 18
7.4 Prioritization of an eCall 18
7.5 Post-crash performance of in-vehicle equipment 18
7.6 Location and direction 19
7.6.1 Location data 19
7.6.2 Data concerning direction and location 19
7.7 Minimum Set of Data (MSD) 20
7.7.1 Data within the MSD 20
7.7.2 Optional additional data 20
7.7.3 Notification of undecoded MSD data to PSAP operator 21
7.8 Modes of operation for automatic triggered eCall 21
7.9 In-vehicle `Human Machine Interface' (HMI) aspects 21
7.9.1 General 21
7.9.2 HMI aspects in the case of automatic triggering 21
7.9.3 HMI aspects in the case of a manual triggering 21
7.9.4 Alerting of initiated eCall (automatically or manually triggered) 22
7.10 Triggering 22
7.10.1 Automatic eCall triggering strategy 22
7.10.2 Manual eCall triggering strategy 22

7.10.3 Manual termination of eCall by vehicle occupants before trigger confirmation 22
7.11 Termination of an in progress eCall 23
7.12 Requirements to physical layer 23
7.12.1 Transport protocol 23
7.12.2 Performance requirements - time required to transmit data 23
7.12.3 End-to-end performance criteria 23
7.12.4 Performance criteria - Wireless network 24
7.12.5 Performance criteria - PSAP 24
7.13 Establish voice channel 25
7.13.1 General 25
7.13.2 Service area issues 25
7.13.3 Roaming requirements for service 25
7.14 Acknowledgement of eCall 25
7.15 Continuing availability 25
7.16 PSAP response 25
7.17 eCall termination 25
7.17.1 General 25
7.17.2 IVS redial 26
7.17.3 PSAP call-back 26
7.17.4 Record transaction 26

8 Defences against attack 27
8.1 Call line security 27
8.2 Hoax calls 27
8.3 False generation of eCalls 27
8.4 End of life management 27
8.5 Denial of service attack 28
8.6 Malicious attack on PSAP 28

9 Different and additional requirements for specific UNECE vehicle categories 28

10 Test and conformance requirements 28
10.1 General 28
10.2 In-vehicle equipment conformance 29
10.3 Network conformance 29
10.4 PSAP conformance 29
10.5 Interoperability conformance 29

11 Marking, labelling and packaging 29
