

# ISO 23150-14:2026-06 (E)

## Road vehicles - Logical interface between sensors and data fusion unit for automated driving functions - Part 14: Ultrasonic specific interfaces

---

| Contents                                               | Page |
|--------------------------------------------------------|------|
| Foreword .....                                         | iv   |
| Introduction .....                                     | v    |
| 1 Scope .....                                          | 1    |
| 2 Normative references .....                           | 1    |
| 3 Terms and definitions .....                          | 1    |
| 4 Abbreviated terms .....                              | 1    |
| 5 Feature level .....                                  | 3    |
| 5.1 Ultrasonic feature interface .....                 | 3    |
| 5.2 Ultrasonic feature header .....                    | 6    |
| 5.3 Ultrasonic feature entity .....                    | 7    |
| 5.4 Ultrasonic feature profiles .....                  | 8    |
| 6 Advanced detection level .....                       | 8    |
| 7 Detection level .....                                | 8    |
| 7.1 Ultrasonic detection interface .....               | 8    |
| 7.2 Ultrasonic detection header .....                  | 10   |
| 7.3 Ultrasonic detection entity .....                  | 12   |
| 7.4 Ultrasonic detection profiles .....                | 13   |
| 7.4.1 Profile: Ultrasonic sensor cluster .....         | 13   |
| Annex A (normative) Ultrasonic interface signals ..... | 16   |
| Bibliography .....                                     | 23   |
