ISO 3808:2002-11 (E)

Road vehicles - Unscreened high-voltage ignition cables - General specifications, test methods and requirements

Contents

Page

1 Scope 1

2 Normative references 1

3 General cable specifications 1
3.1 Cable classes 1
3.2 Cable types 1
3.3 Cable outside diameter 2

4 Tests and requirements 2
4.1 General test conditions 2
4.2 Cable dimensions 2
4.3 Cable resistance 2
4.4 Insulation faults 3
4.5 Thirty minutes test voltage and breakdown voltage 3
4.6 Capacitance 4
4.7 Resistance to corona effect 5
4.8 Pressure at high temperature 5
4.9 Thermal overload 6
4.10 Shrinkage by heat 7
4.11 Resistance to flame propagation 7
4.12 Flexibility at low temperatures 8
4.13 Mechanical strength 8
4.14 Insulation stripping 9
4.15 Fluid compatibility 9
4.16 Accelerated life tests 10

Annex A Test apparatus 13
