| Foreword .....     |  | 3           |
| Introduction ..... |  | 4           |
| 1                  | Scope .....                            | 5           |
| 2                  | Normative references .....             | 5           |
| 3                  | Sampling .....                         | 5           |
| 4                  | Apparatus .....                        | 5           |
| 4.1                | Gas chromatograph .....                | 5           |
| 4.2                | Column .....                           | 5           |
| 5                  | Reagents and materials .....           | 6           |
| 6                  | Preparation of methyl esters .....     | 6           |
| 7                  | Gas-chromatographic analysis .....     | 6           |
| 7.1                | Set-up of gas chromatograph (GC) ..... | 6           |
| 7.2                | Analysis .....                         | 6           |
| 7.3                | Calculation .....                      | 7           |
| 8                  | Test report .....                      | 7           |
| Bibliography ..... |  | 11          |
