

DIN EN ISO 15091:2013-04 (E)

Paints and varnishes - Determination of the electrical conductivity and resistance (ISO 15091:2012)

Contents

	Page
Foreword	3
1 Scope	4
2 Normative references	4
3 Terms and definitions	4
4 General	6
4.1 Measurement of the resistance	6
4.2 Avoidance of electrolysis and polarization effects	7
5 Apparatus	8
5.1 Measuring instrument	8
5.2 Measuring cell	8
6 Sampling	8
7 Procedure	8
7.1 Test conditions	8
7.2 Viscosity of test sample	9
7.3 Number of determinations	9
7.4 Measurement of the electrical resistance or the electrical conductivity	9
8 Expression of results	9
9 Precision	9
10 Test report	10
Annex A (normative) Calibration	11
Annex B (informative) Dependence of the conductivity on the measurement temperature	13
Bibliography	14
