|------------------------------|--|-------------|
| Foreword .....               |  | iv          |
| Introduction .....           |  | v           |
| <b>1</b>                     | <b>Scope .....</b>   | <b>1</b>    |
| <b>2</b>                     | <b>Terms and definitions .....</b>   | <b>1</b>    |
| <b>3</b>                     | <b>Application .....</b>   | <b>4</b>    |
| <b>3.1</b>                   | <b>General .....</b>   | <b>4</b>    |
| <b>3.2</b>                   | <b>Application considerations .....</b>  | <b>4</b>    |
| <b>4</b>                     | <b>Structure and procedure of environmental risk assessment .....</b>  | <b>5</b>    |
| <b>5</b>                     | <b>Exposure assessment .....</b>   | <b>5</b>    |
| <b>5.1</b>                   | <b>Selection of representative product .....</b>   | <b>5</b>    |
| <b>5.2</b>                   | <b>Quantification of release rate .....</b>  | <b>6</b>    |
| <b>5.3</b>                   | <b>Preparing the emission scenario .....</b>   | <b>6</b>    |
| <b>5.4</b>                   | <b>Determination of PEC .....</b>  | <b>8</b>    |
| <b>6</b>                     | <b>Hazard assessment .....</b>   | <b>8</b>    |
| <b>6.1</b>                   | <b>Setting of PNEC .....</b>   | <b>8</b>    |
| <b>6.2</b>                   | <b>Consideration of assessment factors .....</b>   | <b>10</b>   |
| <b>6.3</b>                   | <b>Determination of PNEC used for risk characterization .....</b>  | <b>10</b>   |
| <b>7</b>                     | <b>Risk characterization .....</b>   | <b>11</b>   |
| <b>7.1</b>                   | <b>General .....</b>   | <b>11</b>   |
| <b>7.2</b>                   | <b>Data and information .....</b>  | <b>11</b>   |
| <b>7.3</b>                   | <b>Assessment results .....</b>  | <b>12</b>   |
| <b>7.4</b>                   | <b>Additional information obtained after last risk characterization .....</b>  | <b>13</b>   |
| <b>8</b>                     | <b>Risk assessment report .....</b>  | <b>13</b>   |
| <b>Annex A (informative)</b> | <b>Systems for estimation of release rates of biocidally active substances from anti-fouling paints .....</b>  | <b>14</b>   |
| <b>Annex B (normative)</b>   | <b>Details of risk characterization process of an environmental risk assessment for organic biocidally active substances used in anti-fouling systems on ships .....</b> | <b>17</b>   |
| <b>Annex C (normative)</b>   | <b>Issues to be considered for risk characterization for inorganic biocidally active substances used in anti-fouling systems on ships .....</b>                          | <b>24</b>   |
| <b>Annex D (informative)</b> | <b>Examples of guidance for determining data quality .....</b>   | <b>28</b>   |
| <b>Annex E (informative)</b> | <b>Examples of testing methods .....</b>   | <b>29</b>   |
| <b>Annex F (informative)</b> | <b>Setting of assessment factors (AF) .....</b>  | <b>34</b>   |
| <b>Annex G (normative)</b>   | <b>Minimum information required for the risk assessment report .....</b>   | <b>40</b>   |

|   |           |
|---|-----------|
| <b>Annex H (informative) Previously validated models for predicting environmental concentrations ....</b> | <b>44</b> |
| <b>Bibliography .....</b>   | <b>46</b> |
