## Thermal insulation products - Exterior insulation and finish systems - Part 1: Materials and systems

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		2
4 <b>Requirements</b> .....		4
5 <b>Testing</b> .....		5
6 <b>Marking, packaging and labelling</b> .....		14
<b>Annex A (normative) Bond strength testing (reference: 5.3.3 and 5.4.3)</b> .....		19
<b>Annex B (normative) Water absorption coefficient of the LA-WRB (reference: 5.4.2)</b> .....		22
<b>Annex C (normative) Joint durability test (reference: 5.4.5)</b> .....		27
<b>Annex D (normative) Nail popping resistance test (reference: 5.4.6)</b> .....		33
<b>Annex E (normative) Assessing durability of EIFS under cyclic environmental conditions (reference: 5.5.2)</b> .....		38
<b>Annex F (normative) Assessing drainage performance of EIFS (reference: 5.5.3)</b> .....		49
<b>Annex G (informative) Wind load testing (reference: 5.2.5 and Annex D)</b> .....		57
<b>Annex H (informative) Test specimen preparation for infrared analysis</b> .....		61
<b>Bibliography</b> .....		62
