

ISO 22969:2019 (E)

Paints and varnishes — Determination of solar reflectance

Contents

	Foreword
	Introduction
1	Scope
2	Normative references
3	Terms and definitions
4	Apparatus
4.1	Spectrophotometer
5	Procedure
5.1	Spectral reflectance of test specimen
5.2	Reference global solar radiation
5.3	Determination of solar reflectance
6	Test report
Annex A	(informative) The reference global radiation table
Annex B	(informative) Example of a determination method of solar reflectance
B.1	Principle of the determination method
B.2	Example of calculation
