ISO 8130-8:2021 (E)

Coating powders — Part 8: Assessment of the storage stability of thermosetting powders

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

6 Test panels

7 Sampling

8 Procedure

8.1 Preliminary examination
8.1.1 Determination of initial chemical reactivity of the powder
8.1.2 Determination of initial properties of the coating
8.2 Artificial-storage treatment
8.3 Final examination
8.3.1 General
8.3.2 Change in appearance of the powder
8.3.3 Determination of chemical reactivity of the powder
8.3.4 Determination of properties of the coating prepared from the coating powder after storage

9 Expression of results

10 Precision

11 Test report
