## Preparation of steel substrates before application of paints and related products - Surface preparation methods - Part 4: Acid pickling

---

Contents	Page
Foreword .....	iv
Introduction .....	v
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	1
4 General .....	2
4.1 Pickling liquid .....	2
4.1.1 Requirements to the chemical materials .....	2
4.1.2 Requirements to the formulation and process conditions of a pickling liquid .....	2
4.1.3 Example of formulation and process conditions of a pickling liquid .....	2
4.2 General requirements .....	2
4.2.1 Requirements to the bath equipment materials .....	2
4.2.2 Requirements to the bath analysis .....	2
4.3 Health and safety .....	2
5 Method of acid pickling .....	3
5.1 Procedure for acid pickling .....	3
5.2 Preparation .....	3
5.3 Degreasing .....	3
5.3.1 Components and conditions .....	3
5.3.2 Immersion method .....	4
5.3.3 Part placement .....	4
5.3.4 Immersion time .....	4
5.3.5 Process temperature .....	4
5.4 Fresh water rinsing and/or washing .....	4
5.4.1 Fresh water rinsing process .....	4
5.4.2 Rinsing water temperature .....	4
5.4.3 Fresh water washing process .....	4
5.5 Pickling .....	4
5.5.1 Immersion requirement .....	4
5.5.2 Part placement .....	4
5.5.3 Immersion time .....	4
5.5.4 Process temperature .....	4
5.6 Post treatment .....	5
5.6.1 Conversion layer .....	5
5.6.2 Surface neutralization .....	5
5.6.3 Improvement of the phosphate layer .....	5
5.6.4 Quality check and assurance .....	5
5.6.5 Drying .....	5
6 Assessment of cleaned surface .....	5
Annex A (informative) Formulation and condition of common process liquids .....	6
Bibliography .....	8
