ISO 12944-7:1998-05 (E)

Paints and varnishes - Corrosion protection of steel structures by protective paint systems - Part 7: Execution and supervisi on of paint work

Contents

Page

1 Scope 1

2 Normative references 1

3 Preconditions for the execution of the paint work 2
3.1 Qualification 2
3.2 Condition of the substrate 2
3.3 Health and safety and environmental protection 2

4 Coating materials 3
4.1 Supply 3
4.2 Storage 3

5 Execution of the paint work 3
5.1 General 3
5.2 Application conditions 4
5.3 Application methods 5
5.4 Evaluation before work commences 5

6 Supervision of the paint work 5
6.1 General 5
6.2 Measurement and test instruments 6
6.3 Checking the paint coating 6

7 Reference areas 6
7.1 General 6
7.2 Previously coated surfaces 7
7.3 Reference area records 7
7.4 Assessment of coating 7

Annex A Number of reference areas 8
