Paints and varnishes - Corrosion protection of steel structures by protective paint systems - Part 8: Development of specifications for new work and maintenance

Contents		Page
1	Scope	1
2	Normative references	1
3	Definitions	4
4	How to develop a specification for new work or maintenance	5
5	Contents of a specification	6
	Annex A (informative) Basic information for inclusion in a protective paint system specification for new work and maintenance	16
	Annex B (informative) Reference areas	18
	Annex C (informative) Flow chart for planning new work	21
	Annex D (informative) Flow chart for planning maintenance work 22 Annex E (informative) Classification of environments -- Checklist	23
	Annex F (informative) Example of a simple project specification	24
	Annex G (informative) Recommended form for a protective paint system specification -- New work	29
	Annex H (informative) Recommended form for a protective paint system specification -- Maintenance	30
	Annex I (informative) Recommended form for a report on paint work progress and application conditions	31
	Annex J (informative) Recommended form for final report on corrosion protection work	32
	Annex K (informative) Recommended form for a detailed inspection report on the condition of an existing protective paint system, including the assessment of the need for maintenance .	35
