|---|--|-------------|
| Foreword .....                                    |  | 3           |
| Introduction .....                                |  | 4           |
| 1   | Scope .....                                    | 5           |
| 2   | Normative references .....                     | 5           |
| 3   | Principle .....                                | 5           |
| 4   | Apparatus .....                                | 6           |
| 4.1   | Test chamber .....                             | 6           |
| 4.2   | Lamps .....                                    | 6           |
| 4.3   | Device for wetting the test panels .....       | 6           |
| 4.4   | Black panel thermometer .....                  | 7           |
| 4.5   | Irradiance control .....                       | 7           |
| 5   | Test panels .....                              | 7           |
| 5.1   | Wood .....                                     | 7           |
| 5.2   | Preparation and selection of wood panels ..... | 8           |
| 5.3   | Preparation of coated panels .....             | 8           |
| 6   | Procedure .....                                | 9           |
| 6.1   | Examination before exposure .....              | 9           |
| 6.2   | Mounting the test panels .....                 | 9           |
| 6.3   | Exposure .....                                 | 9           |
| 6.4   | Examination of test panels .....               | 10          |
| 7   | Precision .....                                | 11          |
| 8   | Expression of results and test report .....    | 11          |
| Annex A (normative) Details of test methods ..... |  | 12          |
| A.1   | Gloss and change of gloss .....                | 12          |
| A.2   | Colour and colour change .....                 | 12          |
| A.3   | Blistering .....                               | 12          |
| A.4   | Flaking .....                                  | 12          |
| A.5   | Cracking .....                                 | 12          |
| A.6   | Chalking .....                                 | 12          |
| A.7   | General appearance .....                       | 13          |
| A.8   | Adhesion .....                                 | 13          |
| A.8.1   | General .....                                  | 13          |
| A.8.2   | Apparatus and material .....                   | 13          |
| A.8.3   | Procedure .....                                | 13          |
| Annex B (informative) Explanatory notes .....     |  | 14          |
| B.1   | Explanation of exposure cycle .....            | 14          |

|  |   |           |
|--|---|-----------|
| <b>B.2</b>   | <b>Reproducibility .....</b>                                      | <b>14</b> |
| <b>B.3</b>   | <b>Correlation to natural weathering .....</b>                    | <b>14</b> |
| <b>B.4</b>   | <b>Dependency on wood species and substrate .....</b>             | <b>14</b> |
| <b>B.5</b>   | <b>Recommendation of periodical performance assessments .....</b> | <b>14</b> |
| <b>Annex C (informative) Test for heartwood in pine .....</b>                                  |   | <b>15</b> |
| <b>Annex D (informative) Water treatment, devices for water purification .....</b>             |   | <b>16</b> |
| <b>Annex E (normative) Test for abnormally porous wood .....</b>                               |   | <b>17</b> |
| <b>Annex F (informative) Alternative procedure for preparation and coating of panels .....</b> |   | <b>18</b> |
| <b>Bibliography .....</b>  |   | <b>19</b> |
