DIN EN ISO 16773-2:2007-07 (E)

Paints and varnishes - Electrochemical impedance spectroscopy (EIS) on high-impedance coated specimens - Par t 2: Collection of data (ISO 16773-2:2007)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 4

5 Electrochemical cell 5

6 Procedure 6

7 Instrumental parameters 10

8 Data presentation 12

9 Exchange file format 13

Annex A (informative) Determination of maximum measurable impedance with the open-lead test 14

Annex B (normative) Data exchange file format 16
