DIN EN 13363-1:2007-09 (E)

Solar protection devices combined with glazing - Calculation of solar and light tra nsmittance - Part 1: Simplified method (includes Amendment A1:2007)

Contents

Page

Foreword 3

1 Scope 3

2 Normative references 4

3 Terms, definitions, symbols and units 4

4 Characteristic data 5
4.1 Glazing 5
4.2 Solar protection devices 5

5 Total solar energy transmittance 6
5.1 External solar protection device 7
5.2 Internal solar protection device 7
5.3 Integrated solar protection device 8

6 Light transmittance 9

7 Solar direct transmittance 10

Annex A (informative) Data for typical glazing and solar protection devices 11

Annex B (informative) Example of calculation of a solar protection device in combination with glazing 12
