

DIN EN 1504-9:2008-11 (E)

Products and systems for the protection and repair of concrete structures - Definitions, requirements, quality control and evaluation of conformity - Part 9: General principles for the use of products and systems

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	6
3 Terms and definitions	6
4 Minimum requirements before protection and repair	7
4.1 General	7
4.2 Health and Safety	7
4.3 Assessment of defects and their causes	7
5 Protection and repair within a structure management strategy	9
5.1 General	9
5.2 Options	9
5.3 Factors	9
5.4 Choice of appropriate strategy	10
6 Basis for the choice of protection and repair principles and methods	10
6.1 General	10
6.2 Principles and methods of protection and repair	10
7 Properties of products and systems required for compliance with the principles of protection and repair	13
7.1 General	13
7.2 Methods which do not make use of specific products and systems	13
8 Maintenance following completion of protection and repair	13
9 Health, safety and the environment	13
10 Competence of personnel	13
Annex A (informative) Guidance and background information	15
Introduction	15
A.1 Scope	15
A.2 Normative reference	16
A.3 Terms and definitions	16
A.4 Minimum requirements before protection and repair	16
A.5 Protection and repair within a structure management strategy	20
A.6 Basis for the choice of protection and repair principles and methods	22
