ISO 15927-3:2009-03 (E)

Hygrothermal performance of buildings - Calculation and pre sentation of climatic data - Part 3: Calculation of a driving rain index for vertical surfaces from hourly wind and rain data

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Terms, definitions, symbols and units 2

3 Calculation of airfield indices from hourly wind and rain data 4

4 Estimation of the effect of driving rain from average wind and present weather code for rain 4

5 Calculation of wall indices 5

Annex A (informative) Limits to the validity of the calculated indices 11

Annex B (informative) The nature of a "spell" of driving rain 12

Annex C (informative) The procedure for generating the driving-rain maps 13

Annex D (informative) Comparison of methods specified in Clauses 3 and 4 15
