## Hygrothermal performance of buildings - Calculation and pre sentation of climatic data - Part 3: Calculation of a driving rain index for vertical surfaces from hourly wind and rain data

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Terms, definitions, symbols and units .....	2
3	Calculation of airfield indices from hourly wind and rain data .....	4
4	Estimation of the effect of driving rain from average wind and present weather code for rain .....	4
5	Calculation of wall indices .....	5
Annex A (informative) Limits to the validity of the calculated indices .....		11
Annex B (informative) The nature of a "spell" of driving rain .....		12
Annex C (informative) The procedure for generating the driving-rain maps .....		13
Annex D (informative) Comparison of methods specified in Clauses 3 and 4 .....		15
Bibliography .....		17
