

DIN EN 12802:2011-12 (E)

Road marking materials - Laboratory methods for identification

| Contents | | Page |
|---|--|-------------|
| Foreword | | 3 |
| 1 Scope | | 4 |
| 2 Normative references | | 4 |
| 3 Terms and definitions | | 4 |
| 4 Sampling | | 5 |
| 5 Test methods | | 5 |
| 6 Test Report | | 9 |
| Annex A (normative) Paint - Test method for the determination of the solids content | | 10 |
| Annex B (normative) Paint, thermoplastics and cold plastics - Test method for the determination and identification of organic constituents | | 12 |
| Annex C (normative) Paint, thermoplastic and cold plastic - Test method for the determination and identification of inorganic constituents | | 16 |
| Annex D (normative) Paint, thermoplastics and cold plastics - Test method for the determination of the titanium (IV) dioxide content in the inorganic compound | | 18 |
| Annex E (normative) Paint, thermoplastics and cold plastics - Test method for the determination of the glass bead content | | 21 |
| Annex F (normative) Paint and cold plastics - Test method for the determination and identification of solvents | | 23 |
| Annex G (normative) Paint - Test method for the determination of viscosity (Krebs-Stormer method) | | 26 |
| Annex H (normative) Paint, thermoplastics and cold plastics - Test method for the determination of the ash content | | 31 |
| Bibliography | | 33 |
