

# DIN EN 1857:2010-08 (E)

## Chimneys - Components - Concrete flue liners

---

| <b>Contents</b> |                                      | <b>Page</b> |
|-----------------|--------------------------------------|-------------|
| Foreword .....  |                                      | 5           |
| 1               | Scope .....                          | 6           |
| 2               | Normative references .....           | 6           |
| 3               | Terms and definitions .....          | 6           |
| 4               | Materials .....                      | 8           |
| 4.1             | General .....                        | 8           |
| 4.2             | Reaction to fire .....               | 8           |
| 5               | Reinforcement for handling .....     | 8           |
| 6               | Surface treatment .....              | 8           |
| 7               | Tolerances .....                     | 8           |
| 7.1             | Size .....                           | 8           |
| 7.2             | Straightness .....                   | 9           |
| 7.3             | Squareness of ends .....             | 9           |
| 8               | Performance requirements .....       | 9           |
| 8.1             | Heat stress resistance .....         | 9           |
| 8.2             | Heat shock resistance .....          | 10          |
| 8.3             | Gas tightness .....                  | 10          |
| 8.4             | Abrasion resistance .....            | 11          |
| 8.5             | Compressive strength .....           | 11          |
| 8.6             | Corrosion resistance .....           | 11          |
| 8.7             | Condensate resistance .....          | 12          |
| 8.8             | Bulk density .....                   | 12          |
| 8.9             | Thermal resistance .....             | 12          |
| 8.10            | Freeze/thaw resistance .....         | 12          |
| 8.11            | Flow resistance .....                | 12          |
| 8.11.1          | Flow resistance of flue liners ..... | 12          |
| 8.11.2          | Flow resistance of fittings .....    | 12          |
| 8.12            | Dangerous substances .....           | 12          |
| 9               | Designation .....                    | 12          |
| 9.1             | Designations and classes .....       | 12          |
| 9.1.1           | General .....                        | 12          |
| 9.1.2           | Temperature class .....              | 13          |
| 9.1.3           | Pressure class .....                 | 13          |
| 9.1.4           | Resistance to fire class .....       | 13          |
| 9.1.5           | Condensate resistance class .....    | 14          |
| 9.1.6           | Corrosion resistance class .....     | 14          |
| 9.2             | Designation system .....             | 14          |
| 10              | Marking .....                        | 15          |
| 11              | Product information .....            | 15          |
| 12              | Evaluation of conformity .....       | 16          |

|   |  |    |
|---|--|----|
| 12.1  | General .....                                    | 16 |
| 12.2  | Initial type testing .....                       | 16 |
| 12.3  | Further type tests .....                         | 16 |
| 12.4  | Factory production control .....                 | 16 |
| Annex A (normative) Test methods .....                  |  | 18 |
| A.1   | Measurement of dimensions .....                  | 18 |
| A.1.1   | Transverse dimensions .....                      | 18 |
| A.1.2   | Declared height .....                            | 18 |
| A.1.3   | Wall thickness .....                             | 18 |
| A.2   | Straightness test .....                          | 18 |
| A.2.1   | Apparatus .....                                  | 18 |
| A.2.2   | Procedure .....                                  | 18 |
| A.2.3   | Result .....                                     | 19 |
| A.3   | Squareness of ends test .....                    | 19 |
| A.3.1   | Apparatus .....                                  | 19 |
| A.3.2   | First procedure .....                            | 19 |
| A.3.3   | Result of first procedure .....                  | 19 |
| A.3.4   | Result of second procedure .....                 | 19 |
| A.3.5   | Result .....                                     | 20 |
| A.4   | Heat stress resistance and heat shock test ..... | 20 |
| A.4.1   | Apparatus .....                                  | 21 |
| A.4.2   | Test assembly .....                              | 21 |
| A.4.3   | Test environment and conditioning .....          | 21 |
| A.4.4   | Procedure .....                                  | 22 |
| A.5   | Thermal resistance .....                         | 25 |
| A.5.1   | Test assembly .....                              | 25 |
| A.5.2   | Test procedure .....                             | 25 |
| A.5.3   | Results .....                                    | 26 |
| A.6   | Gas tightness test .....                         | 26 |
| A.6.1   | Apparatus .....                                  | 26 |
| A.6.2   | Test environment and conditioning .....          | 27 |
| A.6.3   | Procedure .....                                  | 27 |
| A.6.4   | Test result .....                                | 28 |
| A.7   | Abrasion resistance test .....                   | 28 |
| A.7.1   | Test assembly .....                              | 28 |
| A.7.2   | Preparation .....                                | 29 |
| A.7.3   | Test brush .....                                 | 29 |
| A.7.4   | Test procedure .....                             | 29 |
| A.7.5   | Test result .....                                | 29 |
| A.8   | Compressive strength test .....                  | 29 |
| A.8.1   | Apparatus .....                                  | 29 |
| A.8.2   | Preparation of test sample .....                 | 29 |
| A.8.3   | Test procedure .....                             | 30 |
| A.9   | Corrosion and condensate resistance test .....   | 30 |
| A.9.1   | Test apparatus .....                             | 30 |
| A.9.2   | Test solution .....                              | 32 |
| A.9.3   | Test assembly .....                              | 32 |
| A.9.4   | Conditioning .....                               | 32 |
| A.9.5   | Test procedure .....                             | 32 |
| A.9.6   | Test results .....                               | 33 |
| A.10  | Bulk density .....                               | 33 |
| A.10.1  | Apparatus .....                                  | 33 |
| A.10.2  | Procedure .....                                  | 33 |
| A.10.3  | Test result .....                                | 33 |
| A.11  | Ultimate compressive strength .....              | 34 |
| A.11.1  | Test procedure .....                             | 34 |
| A.11.2  | Result .....                                     | 34 |
| Annex B (informative) Illustration of joint types ..... |  | 35 |

|  |           |
|--|-----------|
| <b>Annex C (normative) Thermal resistance calculation .....</b>  | <b>36</b> |
| <b>C.1 Thermal resistance of the individual element .....</b>  | <b>36</b> |
| <b>C.2 Thermal resistance of the flue liner .....</b>  | <b>36</b> |
| <b>Annex D (normative) Requirements of sampling plan in accordance with ISO 2859-1 at an<br/>Acceptable Quality Level (AQL) and inspection level S2 Inspection procedure .....</b> | <b>38</b> |
| <b>D.1 Acceptability determination .....</b>   | <b>38</b> |
| <b>D.1.1 General .....</b>   | <b>38</b> |
| <b>D.1.2 Single sampling .....</b>   | <b>38</b> |
| <b>D.1.3 Double sampling .....</b>   | <b>38</b> |
| <b>D.2 Normal inspection .....</b>   | <b>38</b> |
| <b>D.3 Normal .....</b>  | <b>40</b> |
| <b>D.4 Reduced to normal inspection .....</b>  | <b>41</b> |
| <b>D.5 Tightened inspection .....</b>  | <b>41</b> |
| <b>D.6 Tightened to normal inspection .....</b>  | <b>41</b> |
| <b>D.7 Discontinuation of inspection .....</b>   | <b>41</b> |
| <b>Annex E (informative) Recommended test sequence .....</b>   | <b>42</b> |
| <b>Annex F (informative) Abbreviated designations for common types of concrete flue liners .....</b>   | <b>43</b> |
| <b>Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU<br/>Construction Products Directive .....</b>                                      | <b>44</b> |
| <b>ZA.1 Scope and relevant characteristics .....</b>   | <b>44</b> |
| <b>ZA.2 Procedure of attestation of conformity of concrete flue liners .....</b>   | <b>45</b> |
| <b>ZA.2.1 System of attestation of conformity .....</b>  | <b>45</b> |
| <b>ZA.2.2 EC Certificate and Declaration of conformity .....</b>   | <b>46</b> |
| <b>ZA.3 CE Marking and labelling .....</b>   | <b>47</b> |
| <b>Bibliography .....</b>  | <b>49</b> |
