

DIN EN 15757:2010-12 (Engl isch)

Conservation of Cultural Property - Specifications for temperature and relative humidity to limit climate-induced mechanical damage in organic hygroscopic materials

Contents		Page
Foreword		3
Introduction		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	General recommendations for organic hygroscopic materials	7
5	Approach to specifying temperature and RH for organic hygroscopic materials	8
5.1	Determination of priorities	8
5.2	Maintaining stable environmental conditions	8
5.3	Priority of historical climate	9
5.4	Further specifications	9
Annex A (informative) Determination of the RH targets		10
A.1	Rationale	10
A.2	Environmental monitoring - data set	10
A.3	Calculation of the target values	10
A.3.1	Average level	10
A.3.2	Seasonal cycle	10
A.3.3	Short-term fluctuations	11
A.4	Determination of the target range	11
A.5	Example	11
Bibliography		14
