Section 11 Overall stability 9

NDP re 11.5.1(1)P 9

Annexes 9

NDP re Annex A Partial and correlation factors for ultimate limit states and recommended values 9

NDP re Annex B Background information on partial factors for Design Approaches 1, 2, and 3 9

NDP re Annex C Sample procedures to determine earth pressures 9

NDP re Annex D A sample analytical method for bearing resistance calculation 9

NDP re Annex E A sample semi-empirical method for bearing resistance estimation 9

NDP re Annex F Sample methods for settlement evaluation 9

NDP re Annex G A sample method for deriving presumed bearing resistance for spread foundations on rock 9

NDP re Annex H Limiting values of structural deformation and foundation movement 9

NDP re Annex J Checklist for construction supervision and performance monitoring 9
