DIN EN 1096-2:2012-04 (E)

Glass in building - Coated glass - Part 2: Requirements and test methods for class A, B and S coatings

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Requirements 5

5 Samples and test pieces 7
5.1 Preparation 7
5.1.1 Coated annealed glass 7
5.1.2 Thermally treated coated glass 7
5.1.3 Coated toughened or heat strengthened glass 8
5.2 Storage 8
5.3 Marking 8

6 Initial evaluation of test pieces 8
6.1 Preparation 8
6.2 Visual inspection 8
6.3 Spectrophotometric measurements 8
6.3.1 Coated annealed glass 8
6.3.2 Toughened or heat strengthened coated glass 9

7 Duration of the tests 9

8 Test methods 9
8.1 General 9
8.2 Positioning of test pieces in the test cabinets 10

9 Final evaluation of test pieces 11
9.1 General 11
9.2 Cleaning 11
9.3 Visual Inspection 12
9.4 Spectrophotometric measurements 12
9.4.1 Coated annealed glass 12
9.4.2 Thermally treated coated glass 12

10 Test report 13

Annex A (normative) Special procedures for thermally treated coated glass 15

A.1 General 15
A.2 Samples and test pieces for chemical and abrasion tests 15
A.3 Spectrophotometric measurements 15
A.3.1 Samples and test pieces for spectrophotometric measurements 15
A.3.2 Procedures 15

Annex B (normative) Determination of the condensation resistance 17

B.1 General 17
B.2 Procedure 17
B.3 Test cabinet 17

Annex C (normative) Determination of the resistance to acid 19

C.1 General 19
C.2 Procedure 19
C.3 Test cabinet 19

Annex D (normative) Determination of the resistance to neutral salt spray 21

D.1 General 21
D.2 Apparatus 21
D.2.1 Spray cabinet 21
D.2.2 Heater and temperature control 21
D.2.3 Spraying device 21

Annex E (normative) Determination of resistance to abrasion 22

E.1 General 22
E.2 Apparatus 22
E.2.1 General 22
E.2.2 Metal finger 22
E.2.3 Abrasive felt 22
E.3 Test piece 23
E.4 Test procedure 23

Annex F (normative) Criteria to demonstrate equivalence of coatings 25

F.1 General 25
F.2 Composition of coatings 25
F.3 Previous test reports 25
F.4 Evaluation 25
F.5 Examples 25

Annex G (informative) Summary of test report 27

Bibliography 29
