Foreword iv

Introduction v

1 Scope 1

2 Conformance 1
2.1 Conformance overview 1
2.2 Conformance classes 2

3 Normative references 3

4 Terms and definitions 3

5 Abbreviated terms 6

6 Linear referencing 6
6.1 Introduction 6
6.2 Package: Linear Referencing System 17
6.3 Package: Linear Referencing Towards Referent 31
6.4 Package: Linear Referencing Offset 33
6.5 Package: Linear Referencing Offset Vector 39
6.6 Package: Linearly Located Event 41
6.7 Package: Linear Segmentation 47

Annex A (normative) Abstract test suite 52

Annex B (informative) Generalized model for linear referencing 56

Annex C (informative) Commonly used linear referencing methods and models 59

Annex D (informative) Event and segmentation examples 79
