DIN EN ISO 22282-3:2012-09 (E)

Geotechnical investigation and testing - Geohydraulic testing - Part 3: Water pressure tests in rock (ISO 22282-3:2012)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms, definitions and symbols 4
3.1 Terms and definitions 4
3.2 Symbols 5

4 Equipment 6
4.1 General 6
4.2 Pump and supply 9
4.3 Flow meter 9
4.4 Packers 9

5 Test procedure 9
5.1 Test preparation 9
5.2 Test execution 9

6 Reports 11
6.1 Field report 11
6.1.1 General 11
6.1.2 Installation record 12
6.1.3 Record of measured values and test results 12
6.2 Test report 13

Annex A (informative) Record of measured values and test results of the water pressure test 14

Annex B (informative) Interpretation of test results 16

B.1 Methods of interpretation 16
B.2 Interpretation of water pressure tests by pressure flow diagrams 16
B.3 Examples of water pressure tests with continuous monitoring and conclusions 17

Annex C (informative) Evaluation of test results assuming stationary conditions 20

Annex D (informative) Evaluation of constant head and constant rate tests 23

D.1 General principle 23
D.2 Constant head tests 23
D.3 Constant rate tests 24

Annex E (informative) Groutability 27

E.1 Groutability and other derived characteristics of rock masses 27
E.2 Characteristics of grouting and injecting materials 27
E.3 Effect of hydraulic jacking and fracturing 28

Bibliography 29
