Foreword 3

1 Scope 4

2 Normative references 4

3 Terms, definitions and symbols 5
3.1 Terms and definitions 5
3.2 Symbols 5

4 Equipment 5
4.1 General 5
4.2 Test cell 6
4.2.1 General 6
4.2.2 Open system 6
4.2.3 Closed system 6
4.3 Measuring system for hydrostatic pressure or infiltrated volume 8
4.3.1 Open system 8
4.3.2 Closed system 8
4.4 Temperature measuring device 8
4.5 Material requirements 9

5 Test procedure 9
5.1 Preparation of the test surface 9
5.2 Installation of the ring or rings 9
5.3 Conducting the test 9
5.3.1 General 9
5.3.2 Constant head procedure 9
5.3.3 Variable head procedure 10
5.4 Decommissioning of the infiltrometer 10

6 Test results 10

7 Reports 11
7.1 Field report 11
7.1.1 General 11
7.1.2 Record of measured values and other visual observations 11
7.2 Test report 12

Annex A (informative) Record of measured values and test results of the infiltrometer test 13

Annex B (informative) Correction of the influence of temperature variations 17

Annex C (informative) Determination of permeability 19

C.1 Constant head procedure 19
C.2 Variable head procedure 22
