

DIN EN 14319-2:2013-04 (E)

Thermal insulating products for building equipment and industrial installations - In-situ formed dispensed rigid polyurethane (PUR) and polyisocyanurate foam (PIR) products - Part 2: Specification for the installed insulation products

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms, definitions, symbols and abbreviations	4
3.1	Terms and definitions	4
3.2	Symbols and abbreviations	6
4	Requirements	6
4.1	General	6
4.2	Suitability of the building equipment or industrial installation for the installation of the product	6
5	In-situ measurements and calculations	6
5.1	Declared installed insulation thickness	6
5.2	Declared installed thermal resistance, RD	6
5.3	Foam quality checks carried out by the installer	7
6	Guidelines for installation	7
7	Installer's declaration	7
Annex A (normative) Method for the determination of the declared installed insulation thickness		8
Annex B (normative) Suitability of the building equipment or industrial installation to receive the insulation product		9
B.1	Building equipment or industrial installation	9
B.2	Site survey	9
Annex C (normative) Installation guidelines		10
C.1	General	10
C.2	Suitability of cavity	10
C.3	Dispensing machine preparation	10
C.3.1	General	10
C.3.2	Mixing ratio	10
C.4	Dispensing procedure	10
