Fire Safety Engineering - Fire risk assessment - Part 2: Example of an office building

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Applicability of fire risk assessment 1

5 Overview of fire risk management 1

6 Steps in fire risk estimation 1
6.1 Overview of fire risk estimation 1
6.2 Use of scenarios in fire risk assessment 4
6.3 Characterization of probability 6
6.4 Characterization of consequence 8
6.5 Calculation of scenario fire risk and combined fire risk 9

7 Uncertainty, sensitivity, precision, and bias 12

8 Fire risk evaluation 12
8.1 Individual and societal risk 12
8.2 Risk acceptance criteria 12
