Foreword 3

1 Scope 4

2 Normative references 5

3 Terms, definitions and symbols 5
3.1 Terms and definitions 5
3.2 Symbols 7

4 Equipment 9
4.1 General description 9
4.2 Pressuremeter probe 10
4.3 Pressure and volume control unit (CU) 14
4.4 Connecting lines 14
4.5 Injected liquid 14
4.6 Measurement and control 14
4.7 Data logger 15

5 Test procedure 15
5.1 Assembling the parts 15
5.2 Calibration and corrections 15
5.3 Pressuremeter pocket and probe placing 15
5.4 Preparation for testing 16
5.5 Establishing the loading programme 16
5.6 Establishing the differential pressure 17
5.7 Expansion 18
5.8 Back-filling of the pockets 18
5.9 Safety requirements 18

6 Test results 19
6.1 Data sheet and field print-out 19
6.2 Corrected pressuremeter curve 20
6.3 Calculated results 20

7 Reporting 21
7.1 General 21
7.2 Field report 21
7.3 Test report 21

Annex A (normative) Geometrical features of pressuremeter probes 23

Annex B (normative) Calibration and corrections 26

Annex C (normative) Placing the pressuremeter probe in the ground 34

Annex D (normative) Obtaining pressuremeter parameters 41

Annex E (normative) Resolution and uncertainties 49

Annex F (normative) Pressuremeter test records 50

Bibliography 54
