

DIN EN 13242:2013-08 (E)

Aggregates for unbound and hydraulically bound materials for use in civil engineering work and road construction

Contents		Page
Foreword.....		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	8
4	Geometrical requirements	10
4.1	General.....	10
4.2	Aggregate sizes	10
4.3	Grading	11
4.3.1	General.....	11
4.3.2	Coarse aggregates.....	12
4.3.3	Fine aggregates	13
4.3.4	All-in aggregates	13
4.3.5	Special use aggregates and declared grading categories	14
4.3.6	Grading for added filler	14
4.4	Fines content.....	14
4.5	Fines quality	16
4.6	Particle shape of coarse and all-in aggregates	17
4.6.1	Flakiness index and shape index.....	17
4.6.2	Percentage of crushed or broken particles	18
4.6.3	Angularity of aggregates	19
5	Physical requirements	19
5.1	General.....	19
5.2	Resistance to fragmentation	20
5.3	Resistance to wear	21
5.4	Particle density and water absorption.....	22
5.4.1	Particle density	22
5.4.2	Water absorption	22
5.5	Bulk density.....	22
5.6	Water suction height	22
6	Chemical requirements	22
6.1	General.....	22
6.2	Petrographic description	23
6.3	Classification of the constituents of coarse and all-in recycled aggregates	23
6.4	Sulfur containing compounds.....	25
6.4.1	Acid-soluble sulfate.....	25
6.4.2	Total sulfur	25
6.4.3	Water-soluble sulfate content of recycled aggregates	26
6.5	Other constituents	26
6.5.1	Constituents which alter the rate of setting and hardening of hydraulically bound mixtures	26
6.5.2	Constituents which affect the volume stability of blast furnace and steel slag for unbound aggregates	27
7	Durability	28
7.1	General.....	28
7.2	Magnesium sulfate soundness of coarse aggregates	29
7.3	Freeze-thaw resistance	29
7.3.1	Water absorption as a screening test for freeze-thaw resistance	29

7.3.2	Resistance to freezing and thawing	29
7.3.3	Resistance to freezing and thawing in the presence of salt (extreme conditions)	30
7.4	“Sonnenbrand” of basalt	30
8	Evaluation of conformity	31
9	Designation	31
9.1	Designation and description	31
9.2	Additional information for the description of an aggregate	32
10	Marking and labelling	32
Annex A (normative) Source materials considered in the development of EN 13242 and their status in respect of the scope of this standard		33
Annex ZA (informative)		36
ZA.1	Scope and relevant characteristics	36
ZA.2	Procedures for attestation of conformity of aggregates and fillers	38
ZA.2.1	Systems of attestation of conformity	38
ZA.2.2	EC Certificate Declaration of conformity	40
ZA.3	CE marking and labelling	41
Bibliography		46
