

DIN EN ISO 14688-1:2013-12 (E)

Geotechnical investigation and testing - Identification and classification of soil - Part 1: Identification and description (ISO 14688-1:2002 + Amd 1:2013) (includes Amendment A1:2013)

Contents		Page
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	Identification of soil	5
4.1	General	5
4.2	Particle size	7
4.3	Composite soils	7
4.3.1	General	7
4.3.2	Principal fraction	7
4.3.3	Secondary fractions	8
4.4	Plasticity	8
4.5	Organic content	9
4.6	Peat and other organic soils	9
4.7	Volcanic soils	9
4.8	Discontinuities and bedding	10
4.9	Interbedding and mixed soils	10
4.10	Origin of deposit	10
5	Methods for identification and description of soil	10
5.1	Determination of particle size distribution	10
5.2	Determination of particle shape	10
5.3	Determination of mineral composition	11
5.4	Determination of fines content	11
5.5	Determination of soil colours	11
5.6	Determination of dry strength	11
5.7	Determination of dilatancy	12
5.8	Determination of plasticity	12
5.9	Determination of sand, silt and clay content of soils	12
5.10	Determination of carbonate content	13
5.11	Methods for identification and description of organic soil	13
5.12	Determination of the degree of decomposition of peat	13
5.13	Methods of identification and description of volcanic soils	13
5.14	Determination of consistency	13
