Standard tests for measuring reaction-to-fire of products and materials - Their development and application

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Development of reaction to fire tests	2
5	Fire development and growth	3
5.1	General context	3
5.2	Fire performance of products	4
6	Fire hazard assessment	5
6.1	A determination that a particular product can be potentially hazardous in a fire	5
6.2	An estimate of the ignitability of the product being ignited under particular conditions	6
6.3	Knowledge of the reaction of the product in various fire situations	6
6.4	Uses of reaction-to-fire tests in reducing fire hazard in different areas	7
7	Future developments and conclusions	8
Annex A (informative) Reaction-to-fire tests		10
