

# ISO 19154:2014-11 (E)

## Geographic information - Ubiquitous public access - Reference model

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| Foreword .....   |  | iv          |
| Introduction .....   |  | v           |
| 1  | Scope .....  | 1           |
| 2  | Conformance .....  | 1           |
| 3  | Normative references .....   | 1           |
| 4  | Terms and definitions .....  | 1           |
| 5  | Symbols (and abbreviated terms) .....                              | 5           |
| 5.1  | Abbreviated terms .....  | 5           |
| 5.2  | UML notation .....   | 6           |
| 6  | Reference model requirements .....                                 | 6           |
| 6.1  | Background .....   | 6           |
| 6.2  | Design principles of ubiquitous public access .....                | 7           |
| 6.3  | Semantics of UPA .....   | 7           |
| 6.4  | Conceptual framework .....   | 8           |
| 6.5  | Relationship with other ISO geographic information standards ..... | 9           |
| 6.6  | Other areas of standardization .....                               | 11          |
| 7  | RM-ODP viewpoints .....  | 12          |
| 7.1  | Enterprise viewpoint .....   | 12          |
| 7.2  | Information viewpoint .....  | 14          |
| 7.3  | Computational viewpoint .....                                      | 19          |
| Annex A (normative) Abstract test suite .....  |  | 22          |
| Annex B (informative) Additional background information on UPA-to-GI .....                     |  | 24          |
| Annex C (informative) Open Distributed Processing (RM-ODP) for UPA-to-GI reference model ..... |  | 26          |
| Annex D (informative) Service architecture for UPA-to-GI .....                                 |  | 27          |
| Annex E (informative) Existing standardization efforts .....                                   |  | 30          |
| Annex F (informative) UPA-to-GI service scenarios .....  |  | 37          |
| Bibliography .....   |  | 43          |
