

DIN EN 13914-1:2016-09 (E)

Design, preparation and application of external rendering and internal plastering - Part 1: External rendering

| Contents | | Page |
|-------------------------|---|-------------|
| European foreword | | 4 |
| 1 | Scope | 6 |
| 2 | Normative references | 7 |
| 3 | Terms and definitions | 8 |
| 4 | Essential principles and building programme | 11 |
| 4.1 | Essential principles | 11 |
| 4.2 | Building programme | 12 |
| 5 | Materials | 12 |
| 5.1 | Types of render | 12 |
| 5.2 | Materials for site-made renders | 14 |
| 5.3 | Water | 15 |
| 5.4 | Materials for reinforcement, carrier and beads | 15 |
| 5.5 | Fixings | 16 |
| 5.6 | Furring | 17 |
| 6 | Design considerations | 17 |
| 6.1 | General | 17 |
| 6.2 | Factors affecting the design of the rendering system | 17 |
| 6.3 | Characteristics of background | 18 |
| 6.4 | Adequacy of the background | 19 |
| 6.5 | Durability of the render | 20 |
| 6.6 | Exposure conditions | 21 |
| 6.7 | Resistance to rain penetration | 21 |
| 6.8 | Resistance to water rising from the ground without pressure (capillary water) | 22 |
| 6.9 | Soluble salts | 22 |
| 6.10 | Effects of atmospheric pollution | 22 |
| 6.11 | Effects of freezing | 22 |
| 6.12 | Resistance to impact or abrasion | 23 |
| 6.13 | Corrosion of metals | 23 |
| 6.14 | Occurrence of cracking | 23 |
| 6.15 | Thermal considerations | 26 |
| 6.16 | Protection afforded by architectural features and functions | 26 |
| 6.17 | Selection of renders | 36 |
| 6.18 | Number, thickness and relative strength of coats | 37 |
| 6.19 | Types of finish | 40 |
| 6.20 | Colour and texture | 40 |
| 7 | Work on site, preparation and application of renderings | 41 |
| 7.1 | General | 41 |
| 7.2 | Storage of materials | 41 |
| 7.3 | Scaffolding | 41 |
| 7.4 | Protection of adjacent surfaces | 41 |
| 7.5 | Preparation of background | 41 |
| 7.6 | Proportioning of mix materials on site | 44 |
| 7.7 | Mixing on site | 44 |
| 7.8 | Forming architectural features | 45 |

| | | |
|--|---|----|
| 7.9 | Application of the various coats | 45 |
| 8 | Maintenance and repair (other than restoration) | 46 |
| 8.1 | General | 46 |
| 8.2 | Inspection | 47 |
| 8.3 | Repairs to cracks | 47 |
| 8.4 | Repair of hollow or detached areas | 47 |
| 8.5 | Overcoming unsatisfactory appearance | 48 |
| 8.6 | Overcoming water penetration | 49 |
| Annex A(informative) Example on the selection of site mixed prescribed renders mixed in accordance with background type | | 50 |
| A.1 | General | 50 |
| A.2 | Strong mixes | 50 |
| A.3 | Moderately strong mixes | 50 |
| A.4 | Weak mixes | 50 |
| Annex B(informative) Restoration of renders on old and historic buildings | | 51 |
| B.1 | General | 51 |
| B.2 | Preliminary investigations | 51 |
| B.3 | Preparatory work | 53 |
| B.4 | Restoration systems and measures | 53 |
| B.5 | Design | 54 |
| B.6 | Application | 54 |
| Annex C(informative) Examples of products for reinforcement, carrier and beads | | 56 |
| C.1 | General | 56 |
| C.2 | Figures | 56 |
| Annex D(informative) Examples of types of finish | | 60 |
