DIN 277-1:2016-01 (E)

Areas and volumes of buildings - Part 1: Building construction

Contents

Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Terms and definitions ... 4
3.1 Areas of the structure ... 4
3.2 Volumes of the structure ... 5
3.3 Areas of the plot ... 5

4 Classification of areas of the structure ... 6
4.1 Principle and levels of classification ... 6
4.2 Subclassification of the primary area (NUF) ... 6
4.3 Further subclassification of areas ... 7
4.4 Further subclassification of primary area 7 “Other uses (NUF 7)” ... 7
4.5 Further subclassification of the construction area (KGF) ... 7
4.6 Further subclassification of gross floor areas (BGF) ... 7
4.7 Allocation of areas ... 8

5 General determination of areas and volumes ... 9
5.1 Precision of the determination ... 9
5.2 Determination for several structures or construction stages ... 9
5.3 Separate determination by floor plan level and storey height ... 9
5.4 Measuring method ... 9
5.5 Measurement units ... 9
5.6 Separate determination based on room perimeters ... 9

6 Determining the areas of the structure ... 10
6.1 Gross floor area (BGF) ... 10
6.2 Net room area (NRF) ... 10
6.3 Construction area (KGF) ... 11

7 Determining the volumes of the structure ... 11
7.1 Gross volume (BRI) ... 11
7.2 Net volume (NRI) ... 12
7.3 Construction volume (KRI) ... 13

8 Determining the areas of the plot ... 13
8.1 Plot area (GF) ... 13
8.2 Built area (BF) ... 13
8.3 Un-built area (UF) ... 13
8.4 External area (AF) ... 14
