

DIN EN 16883:2017-08 (E)

Conservation of cultural heritage - Guidelines for improving the energy performance of historic buildings

Contents	Page
European foreword	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	6
3.1 Terms related to buildings	6
3.2 Terms related to heritage	8
3.3 Terms related to documentation	11
3.4 Terms related to energy	11
4 General considerations	13
4.1 Introduction	13
4.2 Principles of building conservation	13
4.3 Qualification requirements	14
4.4 Sustainable management of historic buildings	15
4.5 Existing building envelope and technical systems	15
4.6 User behaviour	15
5 Overview of the procedure	15
6 Initiating the planning process	16
7 Building survey and assessment	17
7.1 Introduction	17
7.2 Building information	17
7.3 Describing heritage significance and conservation opportunities and constraints	17
7.4 Assessment of the use of the building	18
7.5 Documenting the building's structural type and its components, its condition and associated environmental influences	18
7.6 Energy performance assessment	18
7.7 Indoor environmental assessment	19
8 Specifying the objectives	20
9 Deciding if improvement of energy performance is needed	20
10 Assessment and selection of measures for improving energy performance	20
10.1 Introduction	20
10.2 Assessment criteria and scale	21
10.3 Compile a long list of measures	22
10.4 Exclude inappropriate measures	23
10.5 Assess remaining measures	23
10.6 Select packages of measures	23
10.7 Assess in relation to targets	23
11 Implementation, documentation and evaluation of improvement measures	23
11.1 Introduction	23

11.2	Implementation	23
11.3	Documentation.....	24
11.4	Post-occupancy evaluation	24
	Annex A (informative) Example of template for building information.....	25
A.1	Building information.....	25
A.2	Legal information	25
A.3	Building description	25
A.4	Defining heritage significance and conservation opportunities and constraints.....	26
A.5	Assessment of past and present use and intended future use	26
A.6	Mapping building's technical structure, condition and environmental influences.....	26
A.7	Energy performance assessment.....	27
A.8	Indoor environmental assessment	27
A.9	Sources and management information.....	27
	Annex B (informative) Example of assessment table	28
	Annex C (informative) Alphabetical index of terms.....	30
	Bibliography	31
