National foreword 3

National Annex NA (informative) Bibliography 5

Foreword 6

Introduction 7

1 Scope 8

2 Normative references 8

3 Terms and definitions 8
3.1 General metrological terms 8
3.2 Terms specific to this part of ISO 17123 10
3.3 The term "uncertainty" 12
3.4 Symbols 13

4 Evaluating uncertainty of measurement 15
4.1 General 15
4.2 Type A evaluation of standard uncertainty 16
4.3 Type B evaluation of standard uncertainty 25
4.4 Law of propagation of uncertainty and combined standard uncertainty 26
4.5 Expanded uncertainty 28

5 Reporting uncertainty 29

6 Summarized concept of uncertainty evaluation 29

7 Statistical tests 30
7.1 General 30
7.2 Question a): is the experimental standard deviation, s, smaller than or equal to a given value ? 30
7.3 Question b): Do two samples belong to the same population? 31
7.4 Question c) [respectively question d)]:Testing the significance of a parameter yk 31

Annex A (informative) Probability distributions 33

Annex B (normative) 2 distribution, Fisher's distribution and Student's t-distribution 34

Annex C (informative) Examples 35

Bibliography 46
