

DIN EN 16907-3:2019-04 (E)

Earthworks - Part 3: Construction procedures

| Contents | | Page |
|-------------------------|--|-------------|
| European foreword | | 4 |
| 1 | Scope | 5 |
| 2 | Normative references | 5 |
| 3 | Terms and definitions | 5 |
| 4 | General considerations | 6 |
| 4.1 | Prerequisites to execution of earthworks | 6 |
| 4.2 | Climatic conditions | 6 |
| 4.3 | Environmental factors | 6 |
| 4.4 | Use of secondary manufactured materials and recycled materials | 7 |
| 5 | Excavation | 8 |
| 5.1 | General | 8 |
| 5.2 | Material type and excavation techniques | 8 |
| 5.3 | Special considerations when excavating in rock | 10 |
| 5.4 | Influence of excavated material end use | 11 |
| 5.5 | Protection of cuts during construction | 11 |
| 5.5.1 | Stability during construction | 11 |
| 5.5.2 | Water control/drainage | 12 |
| 5.5.3 | Erosion | 12 |
| 5.5.4 | Protection of subgrade | 12 |
| 5.6 | Excavation under water | 13 |
| 5.6.1 | General | 13 |
| 5.6.2 | Equipment | 13 |
| 5.6.3 | Tolerance requirement | 13 |
| 5.6.4 | Underwater blasting | 13 |
| 5.6.5 | Supervision and monitoring | 14 |
| 5.6.6 | Environmental protection | 14 |
| 6 | Transportation | 14 |
| 6.1 | General | 14 |
| 6.2 | Bulk earthworks | 15 |
| 6.2.1 | General | 15 |
| 6.2.2 | Transportation on subgrade or capping layer | 16 |
| 6.2.3 | Haul road | 16 |
| 6.3 | Material type and bulk transportation | 17 |
| 6.3.1 | General | 17 |
| 6.3.2 | Dust | 17 |
| 6.3.3 | Protection of existing structures and buried utilities | 18 |
| 6.4 | Road lorries | 18 |
| 6.5 | Alternative transport methods | 19 |
| 6.5.1 | General | 19 |
| 6.5.2 | Transport on water | 19 |
| 6.5.3 | Transport on train | 19 |
| 6.6 | Transportation of materials arising from tunnelling | 19 |
| 7 | Filling and compaction | 21 |
| 7.1 | Groups of material | 21 |
| 7.2 | Compaction specifications | 22 |

| | | |
|---|---|----|
| 7.3 | Preparation of fill area | 22 |
| 7.4 | Spreading | 23 |
| 7.4.1 | General | 23 |
| 7.4.2 | Compaction of embankment edges | 25 |
| 7.4.3 | Layer thickness | 27 |
| 7.5 | Compaction | 27 |
| 7.5.1 | General | 27 |
| 7.5.2 | Compaction equipment types | 28 |
| 7.5.3 | Selection of compaction equipment | 28 |
| 7.6 | Filling under-water | 30 |
| 7.6.1 | General | 30 |
| 7.6.2 | Execution | 30 |
| 7.6.3 | Fill material | 32 |
| 7.6.4 | Embankment slopes | 32 |
| 7.6.5 | Replacement / displacement of soft soil | 33 |
| Annex A (informative) Organization and execution of trial sections | | 34 |
| Annex B (informative) Conditions of use for main groups of material | | 37 |
| Annex C (informative) Excavation machine types | | 79 |
| Annex D (informative) Transportation equipment types | | 81 |
| Annex E (informative) Examples of national practices | | 82 |
| Bibliography | | 85 |
