

DIN EN 16907-3:2019-04 (E)

Earthworks - Part 3: Construction procedures

Contents	Page
European foreword	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 General considerations	6
4.1 Prerequisites to execution of earthworks	6
4.2 Climatic conditions	6
4.3 Environmental factors	6
4.4 Use of secondary manufactured materials and recycled materials	7
5 Excavation	8
5.1 General	8
5.2 Material type and excavation techniques	8
5.3 Special considerations when excavating in rock	10
5.4 Influence of excavated material end use	11
5.5 Protection of cuts during construction	11
5.5.1 Stability during construction	11
5.5.2 Water control/drainage	12
5.5.3 Erosion	12
5.5.4 Protection of subgrade	12
5.6 Excavation under water	13
5.6.1 General	13
5.6.2 Equipment	13
5.6.3 Tolerance requirement	13
5.6.4 Underwater blasting	13
5.6.5 Supervision and monitoring	14
5.6.6 Environmental protection	14
6 Transportation	14
6.1 General	14
6.2 Bulk earthworks	15
6.2.1 General	15
6.2.2 Transportation on subgrade or capping layer	16
6.2.3 Haul road	16
6.3 Material type and bulk transportation	17
6.3.1 General	17
6.3.2 Dust	17
6.3.3 Protection of existing structures and buried utilities	18
6.4 Road lorries	18
6.5 Alternative transport methods	19
6.5.1 General	19
6.5.2 Transport on water	19
6.5.3 Transport on train	19
6.6 Transportation of materials arising from tunnelling	19
7 Filling and compaction	21
7.1 Groups of material	21
7.2 Compaction specifications	22

7.3	Preparation of fill area	22
7.4	Spreading	23
7.4.1	General	23
7.4.2	Compaction of embankment edges	25
7.4.3	Layer thickness	27
7.5	Compaction	27
7.5.1	General	27
7.5.2	Compaction equipment types	28
7.5.3	Selection of compaction equipment	28
7.6	Filling under-water	30
7.6.1	General	30
7.6.2	Execution	30
7.6.3	Fill material	32
7.6.4	Embankment slopes	32
7.6.5	Replacement / displacement of soft soil	33
	Annex A (informative) Organization and execution of trial sections	34
	Annex B (informative) Conditions of use for main groups of material	37
	Annex C (informative) Excavation machine types	79
	Annex D (informative) Transportation equipment types	81
	Annex E (informative) Examples of national practices	82
	Bibliography	85
