DIN 4102-7:2018-11 (E)

Fire behaviour of building material s and building components - Part 7: Roofing - Requirements and testing

Contents

Page

Foreword ... 3

Introduction ... 5

1 Scope ... 6

2 Normative references ... 6

3 Terms and definitions ... 6

4 Requirements ... 6

5 Determining the resistance to flying brands and radiant heat ... 7
5.1 With fire tests ... 7
5.2 No fire tests required ... 7

6 Test roofs ... 7
6.1 Preparation ... 7
6.2 Conditioning ... 7
6.3 Roofing not intended to be installed on a continuous supporting deck ... 7
6.4 Roofing intended to be installed on a continuous supporting deck ... 8
6.5 Rooflights and other closures for openings in the roof ... 8

7 Procedure for testing fire resistance ... 8

8 Exceptions to the standard test procedure ... 9
8.1 Other roof pitches ... 9
8.2 Other conditioning methods ... 10

9 Test certificate ... 10
